

COMMUNITY SOLAR FORUM

INCENTIVES, CHALLENGES & WHAT'S NEXT

An Open Discussion Featuring Local Industry Stakeholders & Experts

Join us **March 25** for a collaborative forum to ask questions, explore the solar landscape, and discuss today's most important topics.

Government Programs

Changes to solar programs can create uncertainty for current and future owners. Find out what these changes mean and how to plan the next steps in your solar journey.

Emerging Energy Technologies

Solar is just the start. Discover new innovations like batteries, EVs, and smart systems, and how they can benefit your property.

Third-Party Ownership

There's more than one way to invest in solar. Learn which approach fits your goals.

Managing Your System

Keep your solar system performing at its best with tips on monitoring, maintenance, and optimization.

Project & Program Challenges

Even well-planned projects can face delays. Hear from industry professionals on navigating challenges with confidence.

Planning Your Next Project

Starting or expanding a solar system? Learn, ask questions, and explore your options with industry stakeholders and experts.
